

Past Antarctic Ice Sheet Dynamics (PAIS) international Conference

10th-15th September 2017
Stazione Marittima, Trieste, Italy

<http://PAIS-conference-2017.inogs.it>
pais-conference2017@inogs.it

- 60 plenary talks
- 140 posters
- 10 side meetings
- public film shows

Co-chairs

- Laura De Santis (OGS, Trieste, Italy)
- Tim Naish (ARC-Victoria Univ. Wellington, NZ)

Promoting committee

- Carlota Escutia (CSIC-Univ. Granada, Spain)
- Rob DeConto (Univ. of Massachusetts, MA, USA),
- Anna Wåhlin (univ. of Göteborg, Sweden)
- Valerie Masson-Delmotte (co-chair of IPCC-WG1, LSCE (CEA-CNRS-UVSQ/IPSL), France)

The aim of the SCAR/PAIS international conference is to present and discuss latest knowledge on the sensitivity and behaviour of Antarctica's ice sheets and their contribution to past and future sea level and climate change.

Future research directions, challenges and opportunities will be addressed within the frameworks of Antarctic science priorities (SCAR Horizon Scan), societal and policy relevance (IPCC), and logistical and operational requirements (SCAR ARC Road Map).
